By Car

THE QUICKEST ROUTE

Take I-95 North to Bangor, exit 182A, and continue on I-395 to exit 6A. Drive east on Route 1A to Ellsworth, then take Route 3 into Bar Harbor.

THE SCENIC ROUTE

Take I-95 North to Augusta, exit 113, and follow Route 3 into Bar Harbor. (Note: in high season the scenic route could add 45-60 minutes to your journey.)

NOTE

During 2017, the State of Maine will be making long-needed highway improvements on Route 3 leading into Bar Harbor. Significant parts of Route 3 will be closed as construction commences.

Consequently, look for route detour signage just after you drive onto Mount Desert Island. These detours are well-marked and will lead you through the scenic center of Mount Desert island. It is not anticipated that route detours will add significantly to your travel time to downtown Bar Harbor and the Ullikana Cottage Inn.

Google Maps and other online map services can provide updated turn-by-turn directions for getting to the Ullikana Cottage Inn, 16 The Field, Bar Harbor, once you enter town by the detour route.
